RetailROI SuperSaturday Presentations and Videos

RetailROI SuperSaturday was a fundraiser for the Retail Orphan Initiative disguised as a top-level IT analyst event. Analysts from Citi Research, Gartner, AMR Research, Aberdeen Group, RSR Research joined C-Level retail executives in early 2010.

The videos and presentations are provided as another fundraising opportunity. We ask simply that if you value this material and want to watch the videos and see the presentation, that you make a nominal donation to the Retail Orphan Initiative at www.retailroi.org. It is on the honor system.

100% of the money raised from this will go to help kids. In fact, for every \$1,000 raised we can rescue a child from the streets and pay for that child's housing, medical treatments, schooling, and food for a year in a country like Cambodia or Zambia.

After your donation, to access the videos, you can go to the following link.

<http://vimeo.com/channels/retailroisupersaturday>

Most of these videos are of the person presenting. The PDFs of the actual slide decks are available here. <http://ihlsvr02.ihlservices.com/myihl/jerry/SuperSaturdayPresentations.zip>

Also, a special thank you to Rob Keenan of RIS News who voluntarily recorded these presentations so we could share these with you.

Thank you for your support of the Retail Orphan Initiative. Should you have any questions or want to get involved, please contact us at info@retailroi.org.

Thanks
